Honorary Clinical Teacher-King's College London

Aesthetic Medicine Faculty Member-Queen Mary University of London

Founder and Director, Great British Academy of Aesthetic Medicine

A deep understanding of anatomy and injection techniques are essential for the safe rejuvenation and enhancement of the lips, perioral area, and the jawline. I will be presenting safe injection techniques for rejuvenation and enhancement of the perioral area, lips, and the jawline. The techniques used in both East and West will be discussed.
